Video: Watch: Tech Support Scammer Tries to Sell Fake "Safeguard" How to Fix Windows Error Code 0x0116 by Windows Recovery Tool Hey guys so im building a PC for a friend. My friend just joined PC building and asked if I could help him. I dont have a ton of money so I got him a motherboard, processor, and video card to build the PC with. Now he wants to put Windows 10 on it but he has 0 experience in PC building so he asked me to help him set up Windows on his new PC. I tried to explain to him that his 1TB hard drive is too small for windows but he did not understand. He went out and bought a 1TB Seagate hard drive that 2d92ce491b
