
Reflector For Vb6 Exe

May 05, 2008 There's also a 4th option: A decompiler. Feb 26, 2008 Use IL SPY. Dec 07, 2007 It may be possible to decompile managed assemblies using SOS, but it is not trivial. Another option is to examine the source code of the application, such as using .NET Reflector or iLok. May 29, 2007 You can use Reflector.NET to decompile a .NET assembly, as long as it is a managed assembly. There is also a "decompile managed code" feature in Microsoft Application Deployment Toolkit (ADT) for .NET 2005 and MS Visual Studio .NET 2005 SP1. Apr 11, 2007 A Microsoft managed code decompiler, Reflector.NET, supports decompiling managed assemblies. However, it is only open source at this time. Dec 08, 2006 there is a free decompiler, .NET Reflector, which has been recently reviewed (item 4), and may be purchased at LavaCon, 2007. It has also been reviewed at "AlterCon" in November 2006, and at "Reactiva" in September 2006. June 20, 2006 Reflector.NET is open source, and is downloadable from: To decompile an assembly, type "reflector" followed by the name of the assembly in the Visual Studio command line. May 22, 2006 Heavens Code Portable Decompiler May 17, 2006 A: SharpDevelop 4 and later have a Decompiler plugin. Q: VBA - Search through Word Documents for a specific string I'm new to VBA and am looking to create a loop where I search through a folder/directory of (x)docx documents to find any document that contains a specific string ("help") and then output these documents to an outlook 2013 contact folder. Any help would be appreciated, thanks. A: After you have selected the folder in which you want to search for your search strings, simply use the following code (VBScript):
Sub Searchdocuments()
Dim doc As Object
For Each doc In objFolder.Files
If InStr(doc.Content, "help") >
