"Atlanta may have gotten the Warehouse District, but we'll be the only one to call this building 'the Ralph'," said Bronx native Ralph David Bradley Jr. "I've been a Mets fan my entire life, and since I was a kid, I've dreamed of the day when my team wins a championship. From the moment I heard that the Mets had been awarded a new stadium, I knew this would be the best thing to happen to the Bronx Zoo ever. I'm very excited to see the Mets break ground in a few months and fill the Ralph with Citi Field." Bradley's decision to join the team was met with both praise and derision. "I think it's an incredibly classy move," said David Healy of the Harlem Seniors. "Ralph always knew he belonged with the Yankees." Critics were equally impressed. "I thought the Mets and Phillies had the most shocking divorce, but the Bronx Zoo have surpassed them," said Harry Ostergard of Forest Park. "Ralph is obviously a big Met fan, but I'll be happy to call this building the Ralph. No Mets fan alive will begrudge Ralph, who did more to help out the Mets during their glory years than all those overpaid 'Tinkerbells.'" Others believe it's a long time coming. "I wasn't impressed when the Mets were going to build a stadium in Elmhurst. I'm sure this move won't be as heralded as the new stadium in Queens will be, but I'll be happy just to finally have a place to call my own." Team spokesperson Mary Kate Holt said that Ralph plans on spending at least half of his time in the 1d6a3396d6

But when the player picks 2 of them in a row it will go into an if else statement and if he chose "Yes" he will have a win, and if he chose "No" he will have a loss. But when I tried it, it didn't work, and I don't know why. Here is the code. Have you tried to put something else in the first if else statement? If I understood correctly, you want to put a one or a two in first if else statement. Try this Code: if(players_to_hire > 0){ if(players_to_hire == 1){ if(player_team == "Red Team"){ if(first_player == "Guy" && second_player == "Ben"){ return "Red Team wins"; } } if(player_team == "Blue Team"){ if(first_player == "James" && second_player == "Peter"){ return "Blue Team wins"; } } }else{ if(player_team == "Red Team"){ if(first_player == "Guy" && second_player == "Ben"){ return "Red Team wins"; } } if(player_team == "Blue Team"){ if(first_player == "James" && second_player == "Peter"){ return "Blue Team wins"; } } } Not sure, but I think that you are better to have different IF statements for first and second if else statement.Ripe grapes are harvested by hand.
