## Death Metal

This package contains the Metal-W3 license that allows you to use this font family for any type of project. You can use this font for personal or commercial projects, including software, hardware, publishing, and animation. It can be used for freely for commercial purposes, including software, hardware, publishing, and animation. There are no additional usage restrictions, nor any additional payment required. You can share it with your customers, sell it, and use it for any purpose, even make it available for free. This allows you to use it for any project with no restrictions whatsoever. If you want to use the font family commercially for free, you must buy the license here. This package also contains the file metal-license.txt that you can use to get more information about this license. Metal-W3 is a professional typeface family, with more than 130 available fonts, covering a wide range of characters, Latin and Cyrillic languages, musical and artistic fonts. This particular metal font was specially designed to be used for technical documentation, for example, for programs, devices, hardware, and software. We suggest that you use the metal and metal-liga fonts for text with long lines, bold fonts for headings, a sans serif font for headlines, and a serif font for the body text. Metal-W3 is a professionally designed typeface for any type of technical documentation. It is available for use in any type of project, including commercial software, technical documentation, hardware, publishing, and animation.
