How to Crack.The federal government's top watchdog for Wall Street has yet to rule on a proposed new regulation that would help investors who lose money on securities sold by banks and other financial institutions. The new regulation would require lenders who supply mortgages and other consumer loans to disclose to consumers what their "expected loss" on a mortgage may be. So far, neither the federal government nor the Minnesota Public Utilities Commission has given final approval to the rule. But the proposed regulation is

---

receiving attention from consumer groups and some state regulators, because it would force financial institutions to factor more risk into how they do business -- something they have so far been unwilling to do. The rule would
