B00EGBM8KF5Â . Alexa Rank About Mapper Mapper is a powerful and
flexible app to prepare maps for iPhone and iPad devices by using
points of interests (POI). For the first time, this app allows you to
create a map offline and it is scalable. This app also allows you to
create a map of an area with multiple levels of detail. Mapper has
many other features that ease the creation of maps of your travels
and delivers the best maps for your iPhone and iPad.In this position
you will be responsible for the development and maintenance of
systems and solutions for digital ink and pressure control. This
includes writing of controls, integration with engine data, and
manufacture related tasks. He would like to offer: "E.M.S. is recruiting
for application developer, java, program/java, c++, test automation,
digital ink control system for gm suv 4.5 with 4/8 cylinders. You will
be a member of a dynamic and collaborative team that creates the
software components of an integrated digital ink and pressure
system. You will work on all aspects of the product from
requirements gathering and specification to integration with the
engine. You will also be responsible for writing software code and
testing that code in a clean, fast and rigorous environment." OTHER

DESIRED QUALIFICATIONS: Location: Houston, TX Education: BA in Computer Science Skills: Microsoft Office Suite Experience: 5 years experience as a software engineer, or at least 3 years in a similar role. 2 years experience with Java, ideally with an OO design language. 2 years project management experience with a software development team. Our Apply process for this position is on a rolling basis: Submit your application letter Company will contact you Company will contact you with more information Company will contact you with decision and schedule Company will contact you with offer Company will contact you with salary and benefits information E.M.S. is an
